May 25, 2021

7:00 PM

\* VIRTUAL MEETING \*

**Present:** Christi Andersen (Chair), Christine Russell (Vice-Chair), Roland Bourdon, Jason Cole, Mike Majors, Adam Nolde, Steve Noone, David Wellinghoff and Sahana Purohit

Ms. Andersen called the meeting to order via a virtual meeting with no Committee members in physical attendance and broadcasted via Zoom and ActonTV.

### **1. Citizen's Concerns**

Tom Gillispie, Chair of the Dog Park Committee, let the members know he was available if there are any questions.

Ms. Purohit provided information regarding the League of Woman Voters upcoming webinar.

### **2. Dog Park Warrant Article**

Presentation by Mr. Post on behalf of a group of abutters on Isaac Davis Way. Mr. Post reviewed the history of the dog park proposal at the Main St. location and the separate 2011 easement agreement the Isaac Way neighborhood has on the parcel and their legal use of such easement. The abutters have concerns over the financial impacts, noise, legal rights, traffic and liability issues.

Committee members questioned who has legal authority over the parcel and the easement. Mr. Majors expressed dismay that the dog park location might not be the highest and best use of the parcel, especially given the opposition of the neighbors. The financial risk related to the legal ownership versus future legal action was raised by multiple members. Mr. Post believes the neighbors could be held liable for injuries or damage that occurs on the easement.

Mr. Majors moved to Recommend. Ms. Russell seconded. Mr. Nolde called the roll:

Ms. Andersen – aye

Ms. Russell – aye

Mr. Wellinghoff – abstain

Mr. Cole – abstain

### **3. Wastewater Treatment System Rehab**

Presentation by Mr. Martin, Select board member, and Mr. Troidl of Woodard and Curran on the rehabilitation of the existing wastewater treatment facility. The scope and cost of the project were discussed. Total project cost is \$6.2m with \$1.7m in funding from sources other than borrowing through the State revolving fund. Additional stimulus money may be available if approved and shovel ready. Committee members expressed concern at using the same firm for operating the plant as well as the feasibility study and possible construction. Mr. Martin and Mr. Troidl replied that the construction would go out to bid, although there are few competitors in the wastewater facility industry.

Clarification was given that the rehabilitation needs to be done to maintain compliance with DEP discharge capacity. Mr. Martin explained that the 230 users of the future Powder Mill place project would help support the debt service payments once online.
