### **IV. Comprehensive Community Plan Process – Lauren Rosenzweig**

Ms. Lauren Rosenzweig discussed the planning process for the comprehensive community plan to create a new Master Plan for Acton. The latest version is from 1998. Last year, a community outreach group process was established with surveys, community research and meetings. Ms. Rosenzweig explained examples of what needs to be included in the plan: choosing certain land use; what kind of housing; what kinds of economic development; maintaining natural, cultural and historical resources; gathering spaces for open space, recreation and protecting water; public facilities and services; public transportation and a program to implement the plan. Ms. Rosenzweig stated there will be a need for the Board's active participation and to research and inform the committee and the community of latest planning practices and how they can be applied.

Board members had concerns regarding:

Need to set a time frame. Need to prioritize, focus on what can happen, plans to create a structure, a way to go forward for future decision.

Board members agreed to recommend to the Board of Selectmen, a small executive group should be formed to oversee the process, and it should include a liaison from each Town board and committee. It will be a long term commitment of 2 years or more.
